

ACURA SHIPPING & LOGISTICS

Acura Shipping & Logistics has been in Logistics business since 2015.

In its endeavour to provide quality logistics solutions to Shipping Lines & NVOCCs, Acura Shipping and Logistics was created providing rented open space, covered godown space & operated empty yard near Mundra Port.

Gradually, we started moving containers to & from Mundra Port & Adani Container Terminals on behalf of these Shipping companies to provide seamless transportation for inland movements.

We forayed into end-to-end Logistics solutions for our clients for imports and exports. We also started providing Customs liaison services & freight forwarding services for export shipments and since then have never looked back.

We have added multiple services over the years ranging from Godown space renting (covered/uncovered) to factory stuffing permissions & factory destuffing for import cargo for smooth and seamless client experience. Over these years we have developed our forte in providing a diverse range of SHIPPING & LOGISTICS services.

Our multi-user strategy allows clients to profit from a shared overhead and a versatile pricing structure; fixed costs are often reduced, assets realised and key staff is often deployed in areas where they will be of most benefit.
